The following information explains how to complete this question.

You should use the instruction booklet in addition to our guidelines to complete this question.

Question 7 – Australian annuities and superannuation income streams

- See pages 14-15 of the instruction booklet or **7 Australian annuities and superannuation income streams 2026 | Australian Taxation Office (ato.gov.au)** for the ATO's instructions.

- In the boxes above and to the left of J, write the amount of the 'Total tax withheld' as shown on your Plan PAYG Payment Summary.
- Add together the 'Taxable component – Taxed element' and 'Tax free component' as shown on your Plan PAYG Payment Summary.
 - If the total is less than \$125,000*, at M write 0 (zero)
 - If the total is more than \$125,000*, continue to Step 4
- Subtract \$125,000* from the amount calculated at Step 3 above.
- Divide the amount calculated at Step 4 above by 2.
- At M write the amount calculated at Step 5 above (whole dollars only).

* If your PAYG Payment summary shows that this is a Death benefit (Reversionary income stream), ie the yes box has been ticked, then your defined benefit income cap may be less than \$125,000. You will need to refer to the ATO's instructions to calculate your reduced defined benefit income cap.
